" Department of the Main Administration

of the Viceroy of the Caucasus "

Inventory - 1

Part: Administrative

PREFACE.

In December 1867, by the decree of the Senate, a reform of the administrative and judicial institutions of the Transcaucasian region was carried out. This reform led to the abolition of a number of central administrative and judicial institutions, including: the Chancellery of the Viceroy of the Caucasus, the Chancellery of the Chief of the Civil Administration of the Viceroy of the Caucasus, the Departments of General Affairs, Judicial Affairs, and Financial Affairs, as well as the Department of State Property and the Institutions of the Judicial Department. The new reform established the Department of the Main Administration of the Viceroy of the Caucasus, which became the central apparatus under the Chancellery of the Chief of the Main Administration, the Chief Civilian Authority in the Caucasus, established in 1859.

The newly established Department consisted of the following structures:

Administrative part.

Inspector department.

Judicial department.

Financial part.

"Zemskaya.

Treasury Department.

Tax table.

Gorskoe branch.

The documentary materials from Fund 7, "Department of the Main Administration of the Chief Civilian Authority in the Caucasus," were evacuated from the North Caucasus in 1923, where they had been evacuated in 1918 due to the opening of the Caucasian Front.

The materials from the fund arrived at the archive in an unordered state. Initially, they were recorded, sorted, and described in 1927. Each structure was recorded as an independent fund, and a fund number was assigned to it. Thus, the structures were assigned the numbers N:

F. 13 - Inspection Department.

F.14 - "- Gorskoe.

F. 15 - Tax table.

F. 16 - Administrative part.

F. 17 - Department of State Revenues.

F. 18 - Part Zemskaya.

F. 19 - Financial part.

F. 20 - Judicial Department.

In 1945, the Unified State Archival Fund (USAF) was introduced, and a unified numbering system for funds was established. When assigning a new fund number to a particular fund, a preliminary audit was conducted, determining that the structures of this fund were not independent funds. Instead, collectively, they constituted the fund of the Department of the Main Administration of the Viceroy of the Caucasus. A new unified fund number, 7, was assigned to it, and its structural parts were incorporated into the Department's fund under the descriptions:

Inventory 1st part	Administrative	-/former F.16/
""	2nd Department Inspectorate	"" F.13
""	3rd - "- Judicial	"" F.20
""	4th Part: Financial	"" F.19
""	5th Zemstvo	"" F.18
""	6th Division of State Revenues	"" F.17
""	7th Tax Board	"" F.15
""	8th Mountain Division	"" F.14

As the materials were processed in the archive, a comprehensive inventory (Inventory 9) was compiled for all structures, and an inventory (Inventory 10) was created for the materials received in the archive (transfer inventory).

The fund-forming entity commenced its activities on January 1, 1868.

Basis: PSZRI, 1867, articles 45259, 45265; Fund 5, file 276. From January 1, 1882, the fund-forming entity was renamed the Department of the Main Administration of the Chief Civilian Authority in the Caucasus.

Basis: PSZRI, 1882. The fund-forming entity was abolished by the Senate decree on April 26, 1883. It effectively ceased operations on June 30.

Basis: PSZRI, 1882, article 1521.

The newly established Department partially took over the functions of the previously abolished departments. The responsibilities of the Department of the Main Administration included the organization and reorganization of administrative, judicial, economic, zemstvo, financial, educational,

and other institutions in cities and rural areas of the provinces and regions of the Caucasus and Transcaucasian territories. The materials of the fund are structurally and chronologically described for the years 1868-1883.

The fund-forming entity was under the direct supervision of the Chief of the Main Administration of the Chief Civilian Authority in the Caucasus.

In 1967, work on editing the inventories of the fund with the printing of inventories was included in the agenda of the NLan TSGA. This was because the inventories were compiled in 1927 by hand, not in a standardized format. Many headings did not reveal the contents and had distortions. There was a large presence of records not related to the content of the fund, and there were many additional inventories.

During the inventory editing process, entries unrelated to the fund were removed from the inventory of the 1st storage unit (notations about attachment to other funds, present in the inventory). Also, for inventories 9 and 10, storage units corresponding to the fund structures had their inventories annulled. Storage units according to Inventory 8, related to the Mountain Division but not pertinent to the structure, were attached to Fund 545.

Currently, there are 9 inventories in the fund:

Inventory 1st - administrative part

"" 2nd - Inspectorate department ""

"" 3rd – Judicial ""

"" 4th - financial part ""

"" 5th – Zemskaya ""

"" 6th - Department of State Revenues ""

"" 7th - Tax table ""

"" 8th - Gorskoe department ""

"" 11th - Department Archive ""

During the editing and removal of storage units unrelated to the fund, the numbering remained unchanged because the records were taken into card-file registration.

Attached to the inventory are: a personal index for all inventories, indicating storage units and their inventories, and transfer tables for storage units attached to other funds according to inventories 8, 9, and 10.
